

# EXTREME PENETRATING OIL H1, Food Grade

This NSF-certified penetrating oil provides extremely fast penetration and is ideal for a variety of food processing applications including loosening frozen parts and bolts.

- ➔ Provides exceptional lubrication as it penetrates and loosens
- ➔ Excellent for all types of food processing applications
- ➔ Fast penetration displaces moisture and leaves a protective coating that prevents rusting
- ➔ Extreme wetting abilities provide ideal film of ongoing lubrication

Applications include:

- All metal surfaces
- Gears
- Valves
- Linkages
- Conveyor parts

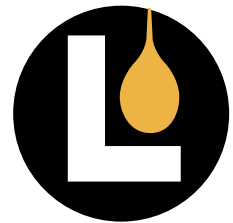

Excellent, ongoing maintenance tool

Stops unwanted squeaks and squeals
